

EECS 492 - Ethics Assignment 1 (Fall 2026)

Discussion Sections: September 11, 2026

This assignment consists of three parts:

1. Completing a reading assignment
2. Completing a reading quiz [30 points]
3. Participating in a discussion section on September 11, 2026(see section 3 for what to do if you cannot make the discussion section) [70 points]

1 Reading Assignment

Read the following article: [“Wrestling with Killer Robots: The Benefits and Challenges of Artificial Intelligence for National Security” by Erik Lin-Greenberg](#).

Included in the article are a video and a podcast; these are optional and not required for this assignment. Part II of this article is a case study; please read through this case study. We will discuss this case study more in discussion section.

You must complete the reading before doing the reading quiz.

2 Reading Quiz [30 points]

After completing the reading, you must complete the reading quiz on **Canvas**. You may refer to the article while completing the quiz.

You must complete the reading quiz before attending discussion section. If you choose not to attend discussion section, you must complete the reading quiz by 11:59pm EST on Friday, September 11, 2026.

Late Day Tokens

You may use your late day tokens for the reading quiz.

To accommodate for coinciding deadlines you may have from other courses, or personal unforeseen events such as sickness, each person has 3 slip day tokens. Each token provides an automatic extension of 1 calendar day—no questions asked.

1. Each late day token covers the reading quiz for an extension of 1 calendar day.
2. The reading quiz will have a question asking if you want to use one or more late day tokens.

3. Late days are rounded up to the nearest integer. For example, a submission that is 4 hours late will count as one day late.
4. Extreme circumstances, like medical emergencies, etc.: In such cases, additional, no-penalty extensions will be granted. Contact your section faculty instructor with some written documentation (like doctor's note).
5. The reading quiz turned in after three days will not be accepted.

3 Discussion Section [70 points]

You must attend a scheduled discussion section on Friday, September 11, 2026. You may attend a discussion section other than the one you are registered for; however, we strongly encourage you to **attend the section you enrolled** in whenever possible. This helps us avoid exceeding room capacity. If attendance exceeds the number of available seats and becomes a safety concern, students who are not enrolled in the section may be asked to leave.

The discussion section times and locations are listed below. Please note that **both sections will be active** for the ethics discussion.

- Friday, 10:30am-11:30am, 1003 EECS
- Friday, 1:30-2:30pm, 1005 EECS

Be on time for discussion section; if you arrive late, we may not count your attendance. You must stay for the entire discussion section for your attendance to be counted.

If you are unable to attend a discussion section because of illness or other reasons, you must attend office hours for the faculty instructors, Dr. Rodríguez or Dr. Bondi-Kelly, to discuss the reading. This must be completed by September 18, 2026.

Full credit for this portion of the assignment will be given by attending either discussion section or a faculty member's office hours.
